Tailored and innovative solutions

plameco  ionLAB  ionPOWDER  ionPRO  ionGUN  ionR2R 

ionGUN

Industrial ion implantation technology for surface enhanced performances

Benefits

- ▲ Physical cold processes
- ▲ Enhance surface properties without any coatings
- ▲ One technology for any materials
- ▲ No dimensional/textur modification
- ▲ Environnement friendly process
- ▲ Cheap operating costs

Features

- ▲ Localised surface treatment Ø 100 mm
- ▲ Surface modification up to 5 µm deep
- ▲ Compact and robust design for industrial requirements
- ▲ Plug and play system on low pressure chamber
- ▲ Any gas can be used: Ar, He, N₂, O₂, SiH₄ and mixtures

TECHNICAL DATA

High frequency power supply	10GHz / 50W
High voltage power supply	Power: up to 600W Extraction voltage: up to 40 kV Ion current: up to 15 mA
Vaccum chamber level	Below 3.10 ⁻⁶ mbar
Water cooling system	yes

Options

- ▲ Charges neutralizer for insulating materials
- ▲ Additional pumping unit
- ▲ Full automated and integrated systems on demand

IONICS equips the following machines with the ionGUN technology: ionLAB, ionPRO, ionR2R and ionPOWDER.

plameco

Low-pressure plasma PVD coater for powders, fibers and loose parts

ionLAB⁴⁰⁰

Low-pressure system equipped with ion implantation for flat treatment

ionLAB¹⁰⁰

Low-pressure system equipped with ion implantation for flat treatment

ionPOWDER¹⁰⁰

Low-pressure system equipped with ion implantation technologies dedicated to the treatment of powders and loose parts

ionR2R⁹⁰

Continuous low-pressure system equipped with ion implantation dedicated to the treatment of reels and wires

ionPRO¹⁸⁰⁰

Ion implantation industrial line dedicated to the treatment of large surfaces

SMART surfaces

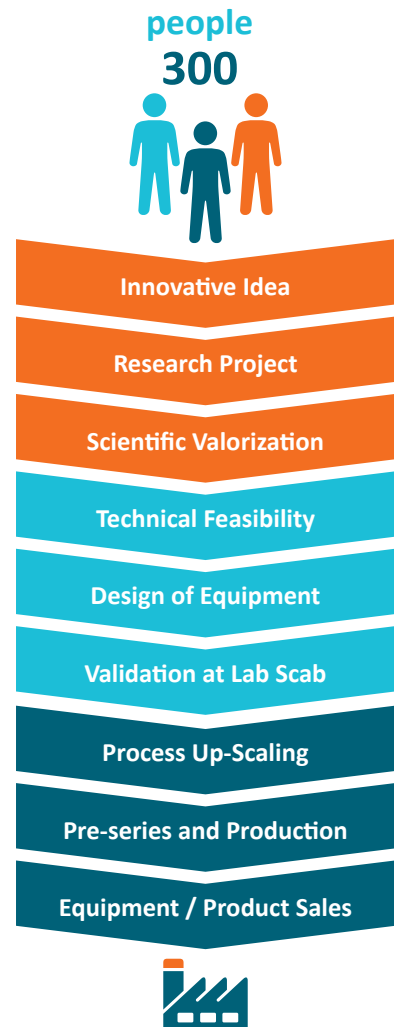

IONICS develops and supplies new surface technologies for metal, glass and other substrates: plasma, ion implantation and electroplating treatment. Our customers capitalize on our innovative technologies and responsive service. Our product portfolio finds use in various industries: automotive, architecture, household appliances, telecommunication, electronics, life science,...

Our vision is to be a leading company in functionalized surface treatments, enabling our customers to explore new product applications by using our smart surface solutions and technologies.

Our values are integrity, cultural diversity and respect for the environment. We are committed to excellence, innovation, service and delivering tomorrow's answers today.

IONICS is certified ISO 9001 and IATF 16949.

From the idea to the industrialization
